

FOCUS™ WALL WASH

FOCAL POINT®

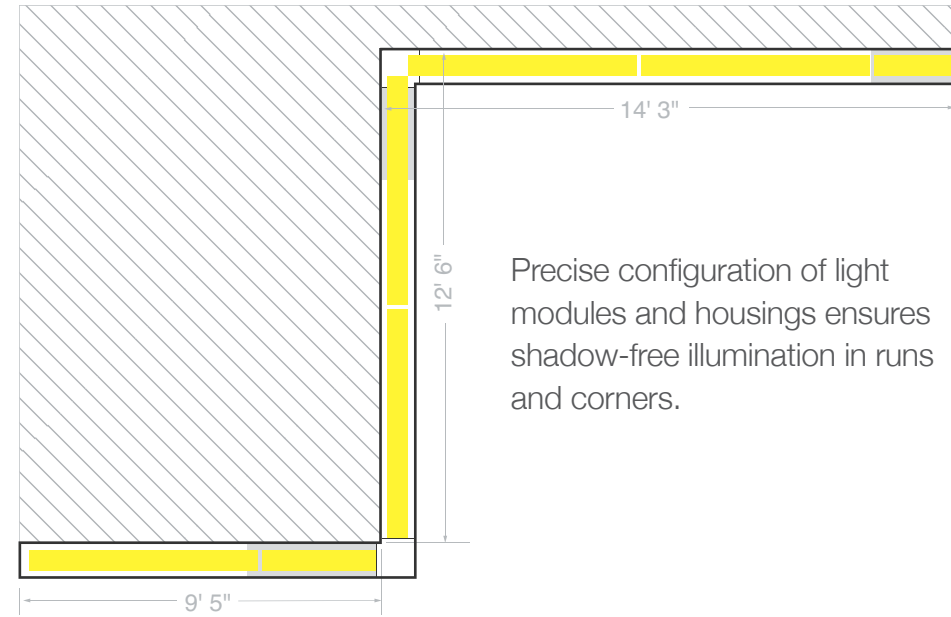

DEFINE AND ENHANCE THE SPACE

A low profile, high performance perimeter luminaire with a fully concealed indirect optic. Focus Wall Wash creates the appearance of a floating ceiling, provides even illumination on walls, adding depth and visual interest.

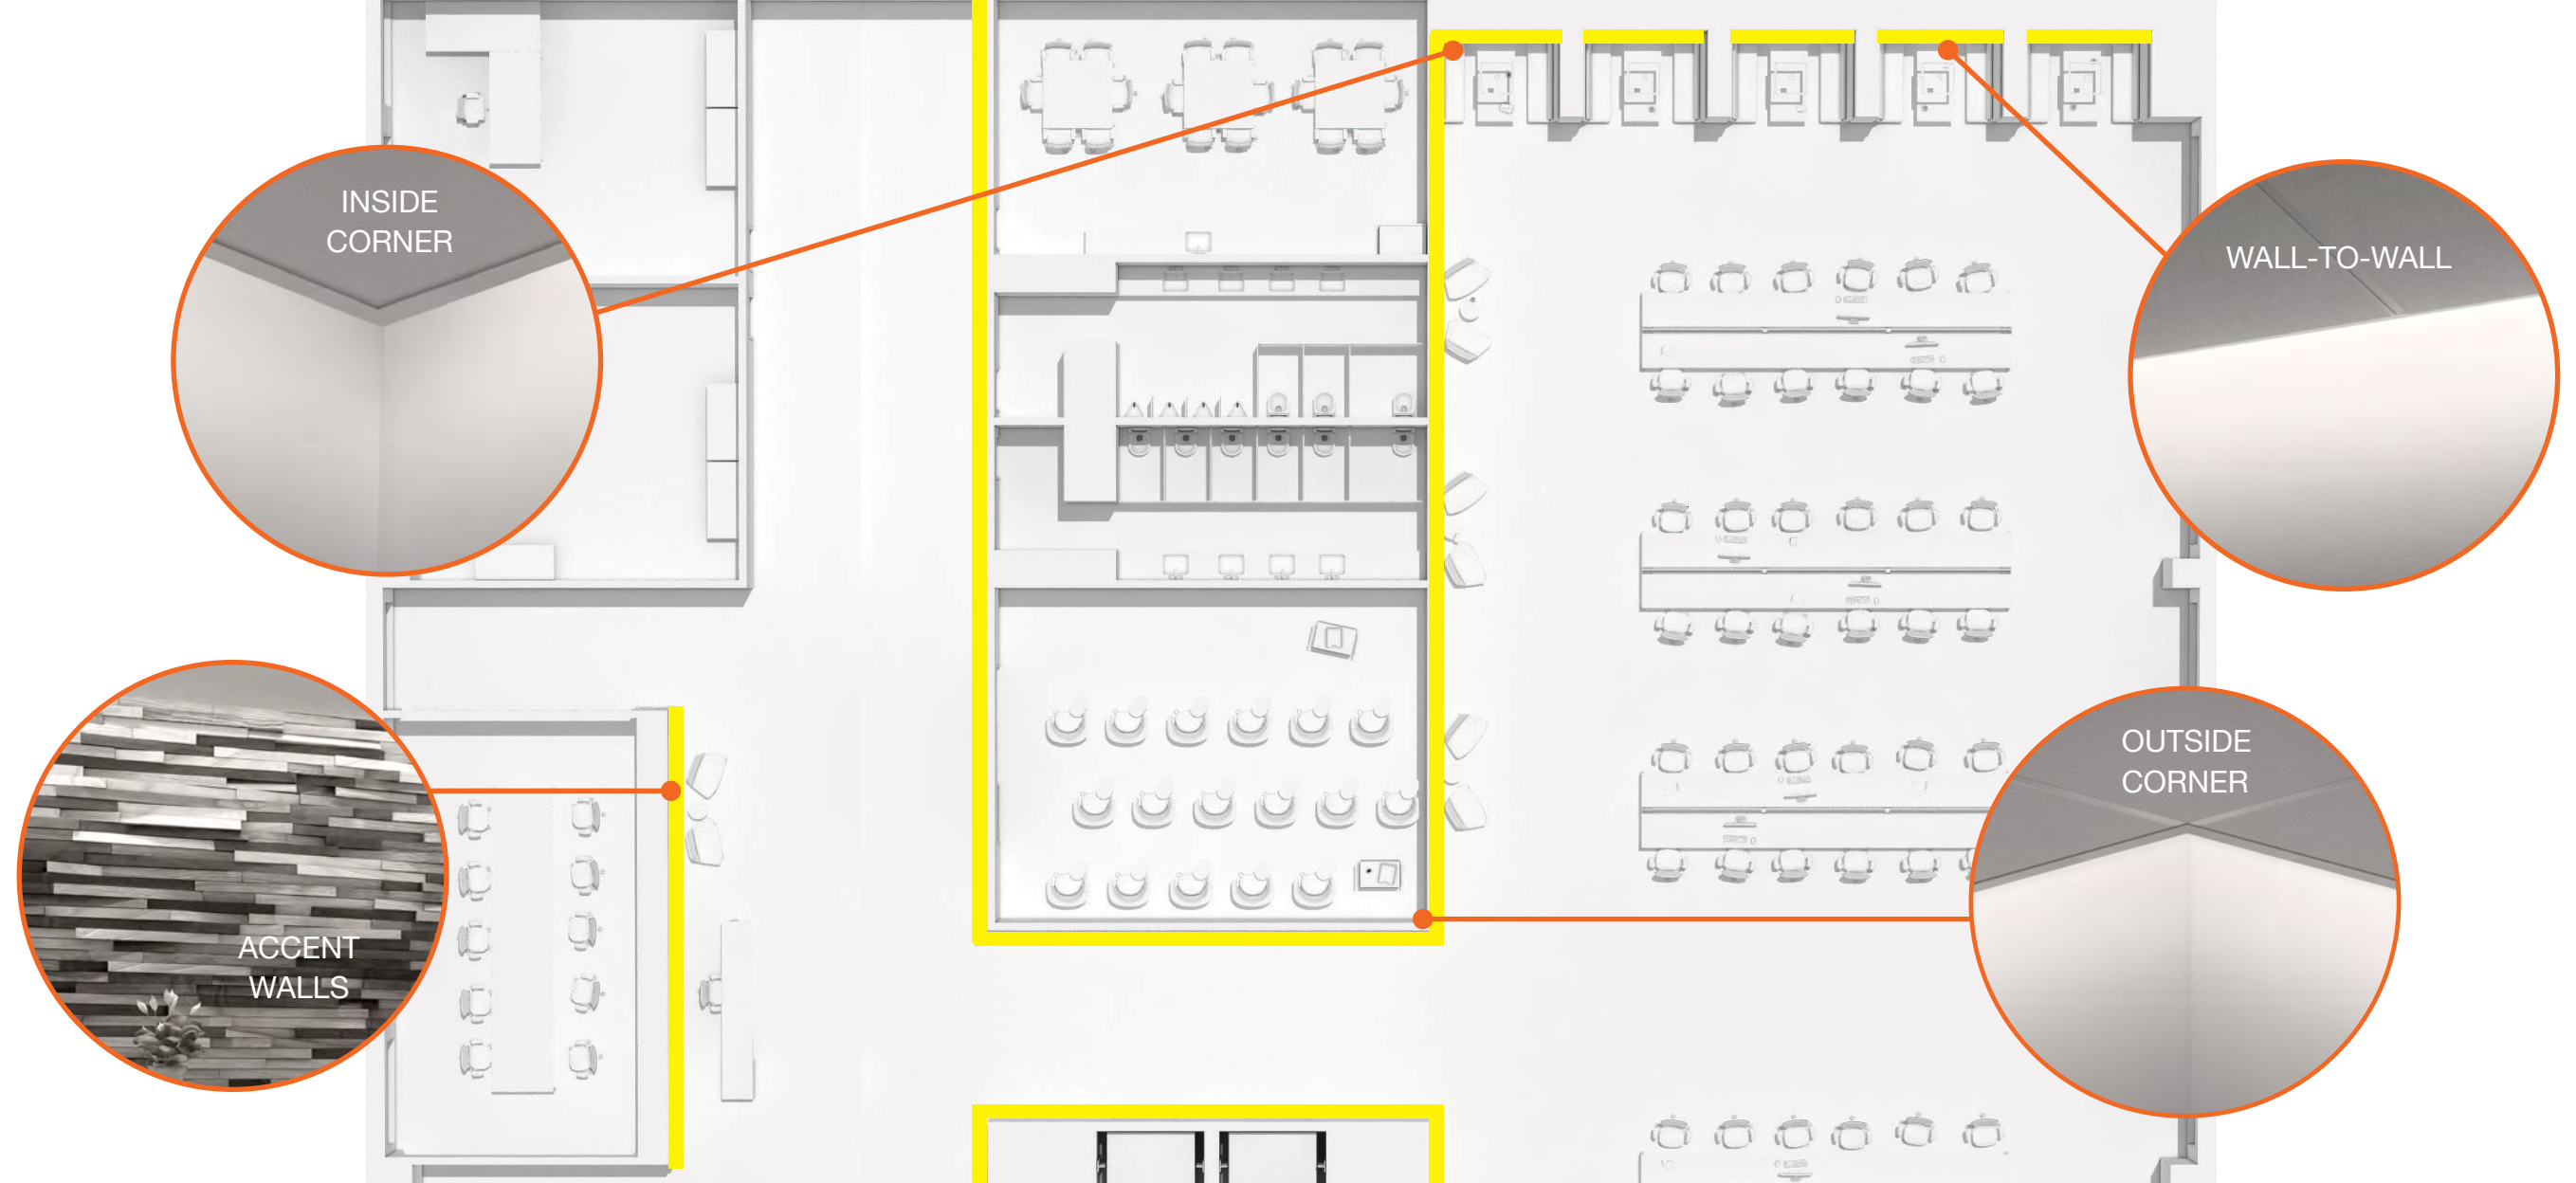

FLEXIBILITY IN DESIGN

Infinite lengths, the ability to create patterns with 90° inside or outside corners; Focus Wall Wash provides design flexibility to achieve the right illumination for each unique interior. It is easy to specify with wall-to-wall measurements. An integrated sliding sleeve ensures precise installation and field adjustability.

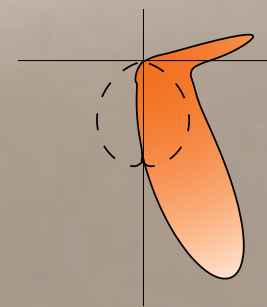

Precise configuration of light modules and housings ensures shadow-free illumination in runs and corners.

■ Integrated Sliding Sleeve
■ LED Light Module

Hidden optics and mechanical elements make a beautiful statement and provide continuous illumination in corridors, elevator lobbies, reception areas, conference rooms and offices.

12' Run, 950 Lm/ft
9' Corridor | 10' Ceiling

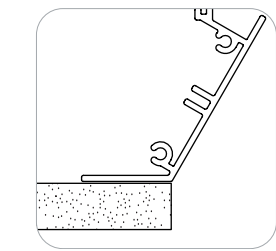

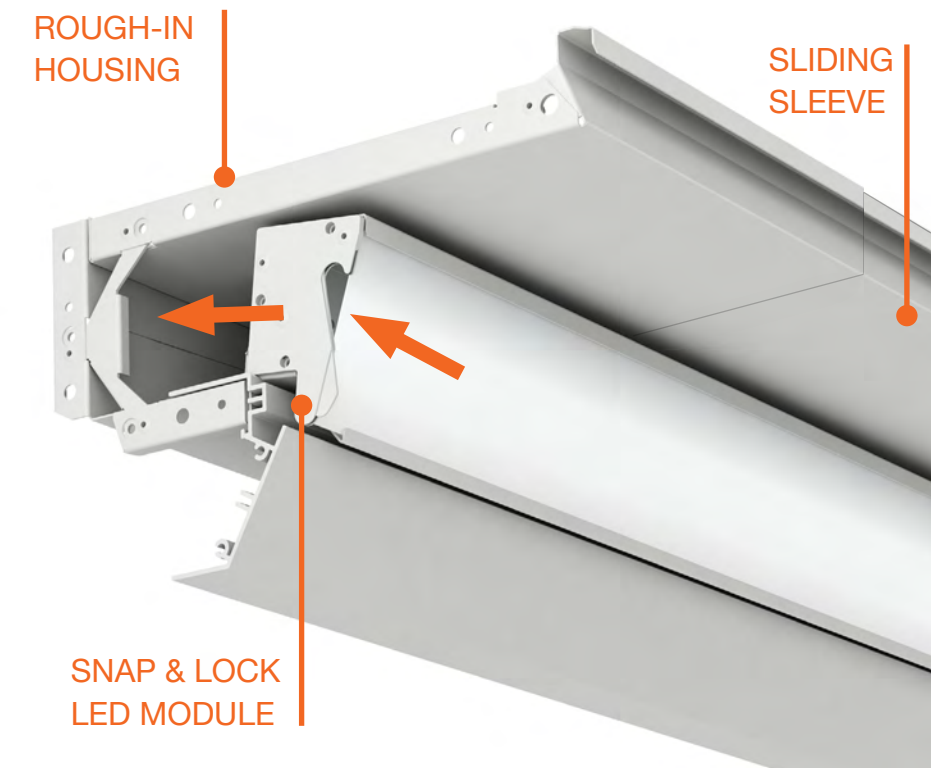

Area*	Avg. Footcandles	Uniformity
Wall	37	2.2 : 1
Floor	22	1.6 : 1

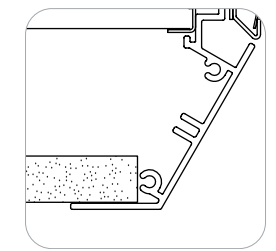

Reflectances 90/80/60 | LLF - 0.9

EASE OF INSTALLATION

Engineered to accommodate shallow plenum grid and drywall ceilings and to provide cost savings. The LED light module can be snapped in the rough-in housing at any stage of the construction process, while the simple electrical connection provides quick and easy installation and maintenance.
